Simulation

The screenshot displays the Cisco Packet Tracer interface. The top menu bar includes File, Edit, Options, View, Tools, Extensions, Window, and Help. Below the menu is a toolbar with various icons for network configuration. The main workspace shows a network topology with three departments: CSE Department, ECE Department, and Administration Department. Each department has a router (Router0, Router1, Router2) connected to a switch (Switch0, Switch1, Switch2). The switches are then connected to two PCs each. The routers are interconnected via a dashed line representing a backbone. The status bar at the bottom shows the time as 00:02:25 and the simulation status as Realtime.

Question 3 – Multi-Branch Company: CIDR & Static Routing:

Question 4 – University Network: Casting & Network Communication:
